SUMMARY

Aimable aspirant with graduation of masters in computer applications. Strong in Java, Python & C++ programming languages. Passionate about implementing and launching new projects with designing and building of APIs. Ability to focus, work and managing skills.

EDUCATION

Aditya Engineering College || MCA (Computer Applications) || 2020 - 2022 || **78%**

Aditya Degree College || B.Sc. (Computer Science) || 2017 - 2020 || **70.7%**

Sri Sai Aditya Junior College || Intermediate || 2015 - 2017 || **81.7%**

Aditya Public School || Secondary School || 2014 - 2015 || **87%**

PROJECTS

Attendance Monitoring System
- Application of managing for record of attendance in an organization.
- Used OpenCv for capturing of live image to compare the face-time to the image in database files provided.
- Used Dlib algorithm for recognition of images for best quality control of possible errors.

Chat Application
- An android application with database of real-time messaging with Google Firebase.
- Modules consists of task managing system, learning modules for programming languages.
- A separated module access for huge range of materials.

Feedback System
- Feedback System made using with web technologies with used framework of Flask with Python for managing of simple data for each groups.
- Designed with CSS, bootstrap and HTML
- Connected with Flask API as a simple developed process integration with python on localhost.

Web Scrapping
- Web Scrapping of WhatsApp with selenium and chromium drive for automation to send and access the data through HTML tags provided in web browser.

Authentication Service with Form Data Resume
- Simple Authentication made using of Django admin and user.

Ecommerce product application
- Ecommerce functioning web application using of react components, DOM and JSX

ABOUT ME

Looking for a position in a company where I can use my abilities to their full potential, and always eager to learn new things in order to contribute to the Organization.

SKILLS

Programming Skills : C, C++, Java, Python, JavaScript, Nodejs
Web Technologies: HTML, CSS, Tailwind CSS, Bootstrap, react-bootstrap
Databases : MySQL, PostgreSQL, Sqlite3, MongoDB, Firebase
Frameworks : Flask, Django, Reactjs, Express.js
Platforms : GitHub, Heroku, 000webhost, Eclipse, Android studios, VScode, IntelliJ
Machine Learning : Preprocessing, Sklearn, Pandas, matplotlib, seaborn, OpenCV, Data visualization
Designing : Adobe Photoshop, UI/UX Tools, Adobe XD, MS Office, PowerPoint, MS Word
Languages : English, Hindi, Telugu

TECHNICAL SKILLS

- Resourceful in SDLC with STLC.
- Object Oriented model for programming approach.
- Time complexity and space complexity.
- Analyzing of Algorithms for approach of achieving and run-time complexity .
- Responsive Static and Dynamic Web Pages.
- Media queries in cascading stylesheet.
- Simple fast designing of CSS with Bootstrap and Tailwind CSS.
- CRUD operations of databases using of python, node.js and java.
- Designing of Excellence in PowerPoint, Word and blending of images in adobe photoshop.
- Designing of web pages and animations in adobe XD for UI/UX Design

EXPERIENCE

Freelancing
- Designing of PowerPoint with clean design of makingcharts, and graphs.
- Blending and filtering of images in Adobe Photoshop
- HTML pages for a responsive designs using media queries for the final year projects of restaurant system, tourism management and airline system landing pages
- Javascript for handling of events for managing of dynamic content for payment process in web applications
- Designing of SQL database in Xampp server.

CERTIFICATIONS

- **Java certification from Udemy**
- **Python certification from DataCamp**
- **HTML:5 Pro from Udemy**

- **SQL masterclass from Star Tech Academy**
- **Microsoft Office with Ultimate features from Udemy**
